Sea Freight — FCL & LCL Solutions

OVERVIEW

We provide world-class ocean freight solutions for both Full Container Load (FCL) and Less-than-Container-Load (LCL) shipments. Backed by strong carrier partnerships and global port coverage, we optimize every ocean movement for cost, speed, and reliability.

KEY HIGHLIGHTS

Competitive ocean freight rates on all major trade lanes

Optimized transit times with trusted carrier partnerships

Full customs clearance support at origin & destination

Specialized handling for hazardous and temperature-sensitive cargo

FCL Shipments

Full container load solutions for bulk cargo with dedicated space & secure transit.

LCL Consolidation

Cost-effective groupage services for smaller shipments sharing container space.

Global Port Coverage

Access to major ports worldwide with competitive freight rates & sailing schedules.

Real-Time Tracking

End-to-end shipment visibility from port of origin to final destination.

Air Freight — Fast & Secure Global Delivery

OVERVIEW

When speed is critical, our air freight services deliver. We provide express and standard air cargo solutions for time-sensitive shipments across international destinations — with precision handling, real-time coordination, and door-to-door delivery capabilities.

KEY HIGHLIGHTS

Charter air cargo for oversized or urgent consignments

Temperature-controlled air freight for pharma & perishables

Air freight consolidation (groupage) for cost efficiency

Full customs clearance and documentation support

Express Air Cargo

Priority air freight for urgent shipments with next-flight-out capabilities.

Time-Critical Delivery

Industry-leading transit times with tight scheduling and carrier coordination.

Secure Handling

Enhanced security protocols for high-value, pharmaceutical, and sensitive cargo.

Door-to-Door

Complete pick-up and delivery service from origin address to final destination.

Road Freight — Oman & Regional Transport

OVERVIEW

We offer comprehensive road transportation across Oman and the GCC region, with a versatile fleet capable of handling all cargo types — from commercial consignments to heavy industrial loads.

FLEET CAPABILITIES

- 3-ton, 7-ton and 10-ton trucks for urban deliveries
- 40-ft flatbed trailers for industrial cargo
- Low-bed trailers for heavy machinery
- Multi-axle trucks for extra-heavy loads
- OPAL-spec vehicles for oil & gas operations

Urban Deliveries

3T–10T trucks for fast city and commercial zone deliveries.

Industrial Cargo

Flatbed & low-bed trailers for machinery and steel structures.

Oil & Gas Ops

OPAL-spec vehicles purpose-built for oil field

Regional Coverage

Oman-wide and cross-border GCC transport

Operations

Project Cargo & Over-Dimensional Handling

OVERVIEW

We are specialists in handling project cargo and Over Dimensional Cargo (ODC), including heavy lifts and complex multi-modal logistics movements. Our team engineers safe, efficient, and fully compliant transport solutions for even the most challenging industrial projects.

KEY HIGHLIGHTS

- Experience in oil & gas plant equipment relocation
- Complete project management from origin to installation site
- Liaison with port authorities, customs, and road authorities
- Available for turnkey EPC project logistics support

Heavy Lift Operations

Engineered lift plans for oversized industrial equipment and structures.

Route Surveys

Pre-movement route surveys and permit acquisition for ODC corridors.

Multi-Modal Solutions

Seamless sea, road, and air combinations for complex project logistics.

Technical Planning

Detailed engineering calculations, rigging plans, and load analysis.

Customs Clearance — Fast, Accurate & Compliant

OVERVIEW

Our customs clearance specialists bring deep expertise in Oman's regulatory framework, ensuring every shipment is processed accurately and efficiently. We minimize delays, avoid penalties, and keep your supply chain moving without interruption.

KEY HIGHLIGHTS

- Registered and accredited with Oman Customs Authority
- Real-time customs status tracking and notifications
- Handling of restricted, controlled, and special commodity imports
- Full documentation audit to prevent costly errors

Import Clearance

Full handling of import documentation, duties, and Oman customs compliance.

Export Clearance

Smooth export processing with correct certificates of origin and declarations.

Bonded Cargo

Management of bonded and in-transit cargo under customs supervision.

HS Code Advisory

Accurate tariff classification and duty optimization to reduce costs.

Warehousing & Distribution Solutions

OVERVIEW

Our secure warehousing and distribution facilities provide scalable storage solutions with bonded storage capabilities, advanced inventory management, and efficient last-mile distribution — all designed to keep your supply chain lean and responsive.

KEY HIGHLIGHTS

- Flexible short-term and long-term storage contracts
- Cross-docking capabilities to reduce transit time
- Value-added services: labeling, kitting, repackaging
- Strict security, CCTV, and access control systems

Bonded Warehousing

Customs-bonded storage for goods awaiting duty payment or re-export.

Inventory Management

Real-time WMS-driven stock visibility, reporting, and FIFO/LIFO control.

Last-Mile Distribution

Timely delivery from our distribution hubs to end customers across Oman.

Temperature Control

Cold-chain storage options available for pharmaceuticals and perishables.

Cargo Insurance & Relocation Services

CARGO INSURANCE

Complete protection for your goods in transit — by sea, air, or road. We arrange comprehensive cargo insurance policies tailored to the nature and value of your shipments, giving you full peace of mind.

- All-risk marine cargo insurance
- Institute Cargo Clauses A, B & C coverage
- Coverage for ODC and project cargo
- Claims management and documentation support
- Swift policy issuance with flexible premiums

RELOCATION SERVICES

We provide professional, stress-free relocation services for individuals and corporations. From packing to final placement, our team handles every detail with care and efficiency.

- Residential & corporate relocation across Oman
- International household goods moving
- Professional packing, wrapping & crating
- Secure storage during relocation transitions
- Pet, vehicle, and specialized item moving

Tailored Solutions Across Key Sectors

Oil & Gas

OPAL logistics, rig supplies, hazmat, project cargo for energy sector.

Energy & Utilities

Power plant equipment, renewable energy components, turbine transport.

Construction

Heavy machinery, steel structures, bulk materials delivery.

Mining & Heavy Industries

Mining equipment, explosives logistics, bulk ore transport.

FMCG & Retail

High-volume distribution, temperature-controlled, just-in-time delivery.

Pharmaceuticals

GDP-compliant cold-chain, controlled substance imports & exports.

Automotive

Ro-Ro, spare parts logistics, vehicle import/export handling.

Industrial Manufacturing

Raw material sourcing, finished goods export, factory logistics.

Our Core Strengths

20+

Years Experience

Two decades of logistics expertise across Oman and global trade corridors.

GCC

Regional Reach

Cross-border transport and customs expertise across the Gulf region.

E2E

End-to-End Solutions

One partner for all logistics needs — sea, air, road, customs & warehousing.

24/7

Operations Support

Round-the-clock customer support and live tracking for every shipment.

100%

Compliance Focus

Zero tolerance for regulatory errors — full documentation and audit trails.

ODC

Complex Cargo Capability

Specialist capability for over-dimensional, heavy-lift, and project cargo.

The Principles That Drive Us

Trust & Integrity

Honesty, transparency, and accountability — building long-term relationships based on trust.

Execution Excellence

Precision, efficiency, and consistent performance in every aspect of our logistics operations.

Reliability

Every shipment handled with care, consistency, and on-time delivery — every single time.

Growth & Innovation

Embracing change, innovation, and continuous improvement to drive long-term success.

Customer-Centric Approach

Solutions designed around customer needs, creating measurable value and lasting partnerships.

Continuous Improvement

Constantly enhancing processes, capabilities, and service standards to stay ahead.

Our Worldwide Partner Ecosystem

Our extensive global agent and partner network enables end-to-end logistics solutions across all major trade lanes. With strategic alliances covering key hubs in Asia, Europe, the Americas, Africa, and the Middle East, Amana Freight Solutions delivers consistent, reliable service wherever your business takes you.

01 Middle East & GCC

Oman, UAE, Saudi Arabia, Kuwait, Qatar, Bahrain — full coverage with direct partnerships.

02 South & East Asia

India, China, Singapore, Malaysia, Japan — key manufacturing & trade origin points.

03 Europe

UK, Germany, Netherlands, Italy — gateway ports and inland distribution hubs.

04 Africa

East & West Africa coverage via Mombasa, Dar es Salaam, and Lagos hubs.

05 Americas

USA, Canada, Brazil — transatlantic and transpacific trade lane coverage.

06 Oceania & SE Asia

Australia, Indonesia, Thailand, Vietnam — growing trade corridor support.

How We Deliver Excellence

CUSTOMER-FIRST PHILOSOPHY

Every solution we design starts with a deep understanding of client needs, operational requirements, and business objectives. We don't sell logistics — we build partnerships.

- 01** Cost-Effective Planning — Optimized routing & modal selection to reduce freight spend
- 02** Precision Execution — SOP-driven operations with KPI tracking at every milestone
- 03** Regulatory Compliance — Full adherence to international trade laws & Oman customs rules
- 04** Transparent Communication — Real-time updates, proactive alerts, dedicated account managers

- 1** **Requirement Analysis**
We assess cargo type, origin, destination, timeline, and budget constraints.
- 2** **Solution Design**
Our team engineers the most efficient route, modal mix, and service combination.
- 3** **Execution & Coordination**
Real-time coordination with carriers, agents, customs, and ground teams.
- 4** **Delivery & Confirmation**
Final delivery with full documentation, POD, and client sign-off.
- 5** **Review & Improvement**
Post-shipment analysis to identify improvements for future movements.

Our Commitment to a Greener Supply Chain

At Amana Freight Solutions, we believe responsible logistics is the future. We are actively embedding sustainability into every layer of our operations — from route planning to partner selection — to reduce our environmental footprint and deliver greener solutions for our clients.

01

Route Optimization

Advanced route planning algorithms reduce fuel consumption and carbon emissions on every shipment.

02

Efficient Resource Use

We maximize load factors and minimize empty runs to reduce overall fleet resource consumption.

03

Green Partner Selection

We prioritize carriers and partners who share our commitment to environmentally responsible practices.

04

Paperless Operations

Digital documentation, e-signatures, and cloud-based systems significantly reduce paper waste.

05

Emissions Monitoring

We track and report Scope 3 emissions data for clients who require ESG-compliant logistics.

06

Continuous Improvement

Annual sustainability reviews to set new targets and measure progress toward net-zero logistics.
